DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 11 October 2005 have been fully considered but they are not persuasive. The rejection of claims 1-7 under 35 USC§102(b) and claim 8 rejected under 35 USC 112 is maintained.

Claim Rejections - 35 USC § 112

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claim 8 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants' argue that one of ordinary skill in the art would appreciate that the oil blends listed in claim 8 are the source of the fatty acids recited in claim 1.

While one of ordinary skill in the art could appreciate that the oil blends recited in claim 8 can be the source of the fatty acids of claim 1, one of ordinary skill in the art could also appreciate the fact that a synthetic source could be used wherein synthetically made fatty acids would be blended together to obtain the lipid system of claim 1.

Claim Rejections - 35 USC § 102

Art Unit: 1621

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 1-7 rejected under 35 U.S.C. 102(a) as being clearly anticipated by US Pub. 2004/0062847.

Applicants' argue while US'847 teaches the fatty acid profile, it does not teach disclose the total fatty acid content of the overall composition or the fatty acid content of the diglycerides and triglycerides in the formulation.

6. US'847 teaches both di and tri-glycerides in the profile of 3 of Table 1 which was referenced in the previous office action contrary to applicants' assertions. The title for Table 1 is "Oil/Fat Composition" indicating an overall total fatty acid content.

While "comprising" is considered an open term, it is noted that the features upon which applicant relies (i.e., di glyceride and triglyceride content) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
